### IRONIC ICONIC AMERICA

Premieres Friday, Oct. 3,  
at 8PM on Bravo

It's hard to imagine a show that covers more ground in less depth than this bizarre reality tour of America. Designer **Tommy Hilfiger** hires slam poet **Rives** to take Israeli model **Bar Refaeli** (Leonardo DiCaprio's squeeze) on a tour of the USA to explain pop culture to her. Rives tries to connect the dots between oddly different subjects to show that, you know, we're all connected. For example: What possible connection could there be between Mount Rushmore, Elizabeth Arden and the Headless Horseman of *Sleepy Hollow*? Blink and you may miss the explanation as this show ping-pongs from subject to subject while barely pausing for breath.
